SUMMARY

Backend Developer with 4+ years of experience in architecting scalable web applications and developing REST APIs, expert in Laravel and MySQL. Key achievements include designing backend services supporting over 10,000 users and optimizing MySQL datasets to improve load times and reliability. Seeking a Lead Developer position at GenZone, where my backend development and REST API skills will support your mission of building a global SaaS platform for company formation and business infrastructure

SKILLS

PHP, Laravel, Node.js, REST APIs, React, Vue.js, JavaScript, HTML, CSS, MySQL, PostgreSQL, MongoDB, AWS, GCP, Azure, CI/CD, Docker, Git, Debugging, Unit Testing, API Integration, SaaS Architecture, KYC Workflows, CRM Integrations, Payment APIs, Document Management, Clean Code, System Design, Leadership, Code Reviews, Mentoring

EXPERIENCE

Software Engineer

[New Spiritz](#) Netherlands (Remote)

May 2025 – Present

- Designed scalable SaaS backend architecture supporting 10K+ users
- Built REST APIs using Laravel and Node.js for web and mobile platforms
- Managed AWS cloud deployments and infrastructure

Analyst Programmer (PHP/Laravel)

[EbizON](#) Noida, India, May 2024 - April 2025

- Developed API-driven SaaS applications using Laravel
- Managed PostgreSQL and MySQL databases
- Documented system architecture and APIs for engineering teams

PHP Developer

[DigitalFox](#) Mohali, India, July 2022 – May 2025

- Developed backend architecture for high-traffic web applications
- Improved application performance through caching strategies
- Collaborated with frontend teams using Vue.js

PROJECTS

Rox Tickets

Fitness Event Ticketing Platform

- Architected backend services powering high-volume ticket sales
- Optimized database queries and caching to support high concurrency

Colabor8

Workforce Management Platform

- Led backend optimization and reliability improvements
- Designed service-oriented backend architecture using Laravel
